

Field Umpires Coaching Session

1. Special Programs Feedback

Harley - BFL Visit

Nick, Daryl & Troy - Split Panels

2. Video Review

Round 8 - Macedon vs Rupo - 2nd Half

0.15 - Backed out to a good distance and adjusted side on

0.20 - Excellent Non-Free Kick. Both Players eyes for the ball.

0.34 - Great angle running

1.15 - Should give that kick up - Short of the contest

1.25 - Seems to be a change on control. When did this happen?

3.18 - Good non-free kick - No ITB or HTB.

3.45 - Scuffle. Generally well handled. Keep more distance and focus on one contest. Picked out a free kick early and stuck with it which was correct.

5.00 - 50m may have been warranted. Help set the scene as its a little niggly.

3. Feedback from AFL Meeting

Report back from MOK on joint meeting of AFL, VFL and Community Coaches.

- One league have a point system for training attendance. So compulsory night are worth more. If you give an apology, you get a % of the points for that night.
- Many leagues are running multiple training venues.
- EFL will have juniors umpires train at 1pm in the school holidays rather than at night.

- VAFA have gone paperless for post match paperwork. All done on smartphone or tablet.
- All groups have HEAPS of young kids.

What we are doing right:

- Our website is one of the best and well known amongst the leagues
- The way we coach in the field, divided up between development levels, is great.
- Our training is good, with variety. Could have more, but sounds better than others.
- Our training numbers are good, could be better.
- Our association is strong and thank god our coaches, our league and our association all work together.
